

Around the World

WOW!

To kick start this topic, the children will be explorers for the day... Where will they go? What will they find out?

English

During the summer term, we will be writing stories about our explorer adventures, reading and performing poems and focussing on editing and improving our writing.

Maths

We will be practising skills already learnt and applying them to solve lots of problems. Justifying and reasoning will be a huge focus.

Science

In Science, we will be continuing to develop our investigation skills as well as learning all about animals and their habitats. We will also learn what living things need to stay alive.

Computing

Over the term we will become Zoologists. We will hunt for bugs and learn how to collect data, organise it and present it using ICT.

Design Technology

In DT, we will be creating a habitat for an animal from our chosen locations.

RE

In RE, we will explore faith in more detail and explore what it means to belong to a community.

Geography

Hot and cold locations will be explored in detail, and we will learn about the human and physical features of different locations. We will learn how to use maps and atlases accurately.

Key skill for life and learning

Concentration
Independence

Forest School Fridays

Children will need long sleeved, warm tops and trousers. Please can wellies stay in school. Waterproofs will be provided. Each class will go every other Friday.

PE

In PE this term we will explore various games skills including tennis, as well as gym sequences.

If you have any questions or queries please don't hesitate to contact us at school! Thank you for all your support.

Unlocking the learning at home...

- Daily reading and answering questions about what the children have read.
- Learning and recalling the 2, 5 and 10 times tables.

...will be on a Wednesday and alternate Thursday.
